A Companion to South Asia in the Past

A Companion to the Anthropology of Health examines the complex cross-cultural and national identities that have shaped the experience and understanding of health and illness. It covers issues such as: the role of disease and illness in shaping identity; the relationship between health and power; the role of ethnicity, race, and religion in health and illness; and the impact of globalization on health and illness. The book is divided into four parts: Part I: Theoretical and Applied Approaches to Health and Illness; Part II: Health and Illness in South Asia; Part III: Health and Illness in Southeast Asia; and Part IV: Health and Illness in Northeast Asia.
