It is a general-interest journal that publishes articles demonstrating scientific excellence across the entire spectrum of psychological science. The journal publishes in fields including cognitive, social, developmental, educational, industrial, organizational, and health psychology, as well as cognitive neuroscience, and other related topics.

The influence of price and funding source disclosure on medication labels: Implications for intended adherence, perceived value and efficacy, and feelings of burden and guilt

British Journal of Health Psychology - Wiley Online Library

Contemporary Educational Psychology publishes articles that involve the application of psychological theory and science to the educational process. Of particular relevance are descriptions of empirical research and the presentation of theory designed to either explicate or enhance the educational process.

European Journal of Investigation in Health, Psychology and Education (ISSN 2254-9625; ISSN 2174-8144 for printed edition) is a peer-reviewed scientific journal that publishes original articles and systematic reviews or meta-analyses related to research on human development throughout the life cycle. It is a journal of the University Association of Education and Psychology (previously...
