Parenting Matters

recognise that nothing in gender is fixed, it remains a fact that the influence of a mother on her son is massive. A mother of four sons herself, Maggie Dent draws on her personal experience - and over four decades work as a teacher, counsellor and now author and speaker - to help build

Maggie is earthy and real, full of love and knowledge, especially on raising sons.” - Steve Biddulph

“Maggie’s perspective on raising boys is spot on. She writes with humor and depth, providing insight and strategies for many of the most important issues facing moms. There is a lovely ease to her writing and a powerful honesty. I hope every mother of a son (and everyone else!) will read this book. The future of the world, to a great extent,

see the world through boys’ eyes a little better, we will make different choices in the way we mother them… and we will find them less confusing, and

of Australia’s most popular parenting authors and educators, and her seminars about boys have sold out all across Australia and in the UK. She is

of Australia’s most popular parenting authors and educators, and her seminars about boys have sold out all across Australia and in the UK. She is

her experience working as a New York City prosecutor of child abuse and sex crimes, Jill Starishevsky has crafted a book that addresses body

sensitively share and discuss the topic of sexual abuse. Through simple language and colorful illustrations, this straightforward, gentle book guides

become increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge,

attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a

variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and

barriers to and facilitators for parents’ use of practices that lead to healthy child outcomes as well as their participation in effective programs and

creating any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the

rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help

their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child’s brain is

Decades of research have demonstrated that the parent-child dyad and the environment of the family—a which includes all primary caregivers—is

important to consider when thinking about how to raise a son. The way we raise our sons shapes the way they see the world - from the very earliest

steps through life. There is no question that the choices we make and the ways we interact with our sons have a direct impact on how confident, self-

esteem and independence they develop. In her new book, Someone Should Have Told Me, Maggie Dent, a author and speaker, offers a heartfelt look

at the complex issues of mothering boys.

Differences in boys and girls are not just biological, but also social and cultural. Boys are socialized to be independent, tough, and strong, while girls

are socialized to be nurturing, cooperative, and gentle. As a result, boys are more likely to engage in risky behavior such as drug use, sexual activity,

and alcohol use. Girls, on the other hand, are more likely to engage in eating disorders and self-harm. These differences are not the result of biology,

but rather the result of societal expectations and norms. Maggie Dent argues that we need to challenge these expectations and norms, and that we need

to raise our sons in a way that allows them to be both strong and sensitive. She offers practical advice on how to parent our sons in a way that

helps them develop into confident, capable men.

Maggie Dent is one of the most respected parenting authors in Australia. Her previous book, Finally Sharing Her Insights, Her Reflections, and (As

Always) Her Humour Around Mothering Boys to Help You Be the Mum Your Son Needs You to Be, has been highly acclaimed for its candid and

honest approach to parenting boys. In Someone Should Have Told Me, Maggie takes this approach to the next level, offering specific strategies for

parenting boys in a way that will help them develop into confident, capable men.

This book is a must-read for anyone who is parenting a son. It is filled with practical advice and strategies that will help parents navigate the unique

challenges of raising sons. Maggie Dent’s writing is honest, open, and heartfelt, and she offers a wealth of insights that will be invaluable to any

parent of a son. If you are looking for a guide to parenting boys that is both practical and meaningful, Someone Should Have Told Me is the book for

you.

Where To Download Teaching Children Protective Behaviours

The Fabulous Friend Machine
Matilda learns that if you feel unsafe, you need to tell an adult you trust, that you don’t feel safe. She also learns the importance of persisting with telling adults you trust, until someone helps you feel safe again. As adults, we need to be careful about the messages we give to children. This book helps parents and teachers talk with children about self protection, in a gentle and meaningful way. It also contains resource pages for adults, which include going over the main points of protective education (protective behaviours), and giving specific information to effectively and efficiently deal with receiving a disclosure of abuse from a child. This book is the first in a series of books where Miss Martin teaches her students about protective education. One of the most challenging aspects of being a parent is preparing your child for the potential challenges that exist in the world. How do you achieve this without scaring them, wrapping them in cotton wool or providing them with too much information? Protective education is a proactive life skills approach. By teaching children the language and principles of protective education, in a holistic and integrated way, they can acquire invaluable skills and strategies to identify unsafe situations and protect themselves from potential harm. With a strong foundation in empowering children and building resilience, the protective education program is not only an abuse prevention program, it can also be extended to embrace anti-bullying, drug awareness, or youth suicide prevention programs.

Holding Hands
Protective Behaviours is a practical resource that has evolved from the tried and tested ideas and experience of a group of teachers. The book contains whole-lesson plans and lists of activity suggestions which can be adapted to suit children’s ages and needs, and are intended as a reference for using the Protective Behaviours process. It will help children to:
- Make safer choices
- Stand up to bullying behaviours
- Deal with transition and change
- Cope with divorce, loss and separation
- Develop a vocabulary of feelings.
The activities are linked to different themes and coded to suggest suitable age groups and group sizes. The book includes a brief explanation of the Protective Behaviours process.

Coloring Book Some Parts are NOT for Sharing
This book explores consent and respect with children especially in relation to body boundaries, both theirs and others. A child growing up knowing they have a right to their own personal space, gives that child ownership and choices as to what happens to them. These concepts are presented in a child-friendly and easily-understood manner.

Hayden-Reece Learns a Valuable Lesson that Private Means ‘just for You’
Teaching your child protective education (protective behaviours) can be one of the most challenging aspects of parenting. How do you prepare them for the potential dangers that exist in the world without scaring them, wrapping them in cotton wool, or providing too much information? This parent’s handbook will assist parents and caregivers to teach protective education to their children. It provides a holistic approach and is full of practical hints and useful worksheets to assist parents. Teaching your children the language and principles of protective education as young as possible, can help protect them from potential harm as well as provide them with invaluable life skills.

Teaching Protective Behaviours to Young Children
Introduces the topic of sexual abuse, and how children can protect themselves. Includes questions to gauge the child’s understanding, and tips for parents.
