An Entertaining Story

To Make Their Own Way in the World is a profound consideration of some of the most challenging images in the early history of photography. The fifteen daguerreotypes—made in 1850 by photographer Joseph T. Zealy—portray Alfred, Delia, Drana, Fassena, Jack, Jem, and Renty, men and women of African descent
who were enslaved in South Carolina. Since 1976, when the daguerreotypes were rediscovered at
Harvard University's Peabody Museum, the photographs have been the subject of intense and
widespread study. To Make Their Own Way in the World features essays by prominent scholars who
explore everything from the photographs' historical context and the "science" of race to the ways in which
photography created a visual narrative of slavery and its effects. Multidisciplinary, deeply collaborative,
and with more than two hundred illustrations, including new photography by contemporary artist Carrie
Mae Weems, this book frames the Zealy daguerreotypes as works of urgent contemporary inquiry.

Remorse

An instant New York Times bestseller, Dopesick is the only book to tell the full story of the opioid crisis,
from the boardroom to the courtroom and into the living rooms of Americans struggling to save themselves
and their families: "masterfully interlaces stories of communities in crisis with dark histories of corporate
greed and regulatory indifference" (New York Times) from a journalist who has lived through it. In this
extraordinary work, Beth Macy takes us into the epicenter of a national drama that has unfolded over two
decades. From the labs and marketing departments of big pharma to local doctor's offices; wealthy
suburbs to distressed small communities in Central Appalachia; from distant cities to once-idyllic farm
towns; the spread of opioid addiction follows a tortuous trajectory that illustrates how this crisis has
persisted for so long and become so firmly entrenched. Beginning with a single dealer who lands in a small
Virginia town and sets about turning high school football stars into heroin overdose statistics, Macy sets
out to answer a grieving mother's question-why her only son died-and comes away with a gripping,
unputdownable story of greed and need. From the introduction of OxyContin in 1996, Macy investigates
the powerful forces that led America's doctors and patients to embrace a medical culture where
overtreatment with painkillers became the norm. In some of the same communities featured in her
bestselling book Factory Man, the unemployed use painkillers both to numb the pain of joblessness and
pay their bills, while privileged teens trade pills in cul-de-sacs, and even high school standouts fall prey to
prostitution, jail, and death. Through unsparing, compelling, and unforgettably humane portraits of families
and first responders determined to ameliorate this epidemic, each facet of the crisis comes into focus. In
these politically fragmented times, Beth Macy shows that one thing uniting Americans across geographic,
partisan, and class lines is opioid drug abuse. But even in the midst of twin crises in drug abuse and
healthcare, Macy finds reason to hope and ample signs of the spirit and tenacity that are helping the
countless ordinary people ensnared by addiction build a better future for themselves, their families, and
their communities. "An impressive feat of journalism, monumental in scope and urgent in its implications." -

Crime And Punishment In England

Making Sense of Criminology is a clear, concise introduction for all students new to the subject. As well as introducing ideas about crime and criminals, it is intended to help students make sense of criminology as a study or discipline. The authors present criminology as a debate about assessing and evaluating information connected with crime. The book explores the key issues, philosophies and debates in criminology, making use of a variety of writers and texts to illuminate recurring themes and tensions in the field. Students are encouraged to become aware of what constitutes data in criminology and to recognize
the uses of theory in evaluating criminological problems. In a ground plan of the subject, the history of criminology is set alongside current information about the justice system and awareness of current trends in research. This provides an excellent base on which new students can build their study.

**Governing the Commons**

"Henry VI, Part 3 (often written as 3 Henry VI) is a history play by William Shakespeare believed to have been written in 1591 and set during the lifetime of King Henry VI of England. Whereas 1 Henry VI deals with the loss of England's French territories and the political machinations leading up to the Wars of the Roses and 2 Henry VI focuses on the King's inability to quell the bickering of his nobles, and the inevitability of armed conflict, 3 Henry VI deals primarily with the horrors of that conflict, with the once stable nation thrown into chaos and barbarism as families break down and moral codes are subverted in
the pursuit of revenge and power. Although the Henry VI trilogy may not have been written in chronological order, the three plays are often grouped together with Richard III to form a tetralogy covering the entire Wars of the Roses saga, from the death of Henry V in 1422 to the rise to power of Henry VII in 1485. It was the success of this sequence of plays that firmly established Shakespeare's reputation as a playwright."

The Invention of Tradition

This book offers a comprehensive overview to chronic illness care, which is the coordinated, comprehensive, and sustained response to chronic diseases and conditions by a range of health care providers, formal and informal caregivers, healthcare systems, and community-based resources. Using an ecological framework, which looks at the interdependent influences between individuals and their larger environment, this unique text examines chronic illness care at multiple levels and includes sections on the individual influences on chronic illness, the role of family and social networks, and how chronic care is provided across the spectrum of health care settings; from home to clinic to the emergency department to hospital and residential care facilities. The book describes the organizational frameworks and strategies that are needed to provide quality care for chronically ill patients, including behavioral health, care management, transitions of care, and health information technology. The book also addresses the changing workforce needs in health care, and the fiscal models and policies that will be required to meet the needs of this population, with a focus on sustaining the ongoing transformation in health care. This book acts as a major reference for practitioners and students in medicine, nursing, social work, allied health, and behavioral medicine, as well as stakeholders in public health, health policy, and population health.

Religious Bodies Politic examines the complex relationship between transnational religion and politics through the lens of one cosmopolitan community in Siberia: Buryats, who live in a semiautonomous republic within Russia with a large Buddhist population. Looking at religious transformation among Buryats across changing political economies, Anya Bernstein argues that under conditions of rapid social change—such as those that accompanied the Russian Revolution, the Cold War, and the fall of the Soviet Union—Buryats have used Buddhist “body politics” to articulate their relationship not only with the Russian state, but also with the larger Buddhist world. During these periods, Bernstein shows, certain people and their bodies became key sites through which Buryats conformed to and challenged Russian political rule. She presents particular cases of these emblematic bodies—dead bodies of famous monks, temporary bodies of reincarnated lamas, ascetic and celibate bodies of Buddhist monastics, and dismembered bodies of lay disciples given as imaginary gifts to spirits—to investigate the specific ways in which religion and politics have intersected. Contributing to the growing literature on postsocialism and studies of sovereignty that focus on the body, Religious Bodies Politic is a fascinating illustration of how this community employed Buddhism to adapt to key moments of political change.

Chronicles of England, Scotland and Ireland

Henry VI, Part 3 Illustrated

How was the law used to control sex in Tudor England? What were the differences between secular and religious practice? This major study reveals that - contrary to what historians have often supposed - in pre-Reformation England both ecclesiastical and secular (especially urban) courts were already highly active in regulating sex. They not only enforced clerical celibacy and sought to combat prostitution but also restrained the pre- and extramarital sexual activities of laypeople more generally. Initially destabilising, the religious and institutional changes of 1530-60 eventually led to important new developments that tightened the regime further. There were striking innovations in the use of shaming punishments in provincial towns and experiments in the practice of public penance in the church courts, while Bridewell transformed the situation in London. Allowing the clergy to marry was a milestone of a different sort. Together these changes contributed to a marked shift in the moral climate by 1600.

Encyclopedia of Censorship

Deploying literary analysis, theories of emotion from the sciences and humanities, and an archival account of Tudor history, Emotion in the Tudor Court examines how literature both reflects and constructs the
emotional dynamics of life in the Renaissance court. In it, Bradley J. Irish argues that emotionality is a foundational framework through which historical subjects embody and engage their world, and thus can serve as a fundamental lens of social and textual analysis. Spanning the sixteenth century, Emotion in the Tudor Court explores Cardinal Thomas Wolsey and Henrician satire; Henry Howard, Earl of Surrey, and elegy; Sir Philip Sidney and Elizabethan pageantry; and Robert Devereux, Earl of Essex, and factional literature. It demonstrates how the dynamics of disgust, envy, rejection, and dread, as they are understood in the modern affective sciences, can be seen to guide literary production in the early modern court. By combining Renaissance concepts of emotion with modern research in the social and natural sciences, Emotion in the Tudor Court takes a transdisciplinary approach to yield fascinating and robust ways to illuminate both literary studies and cultural history.

To Make Their Own Way in the World: The Enduring Legacy of the Zealy Daguerreotypes

Style icon India Hicks's charming take on entertaining, featuring dreamy tablescapes, found centerpieces, and enjoyable family anecdotes. Daughter of the late David Hicks and goddaughter to Prince Charles, India Hicks is known for her irreverent take on style. In her previous books, she invited readers into her homes on Harbour Island and in England. For her third book, India presents her own slightly madcap spin on entertaining. Organized by meal, the book begins marvelously with the most important meal of the day--cocktail hour--and ends with breakfast. In between, there are family suppers and big dinners, birthday cakes and Christmas crackers, great British breakfasts, quick teas and long lunches, mustard pots as vases, and bedcovers for tablecloths. Like India, these stories are full of personality, from the Panic Dinner (or what to do when you suddenly have a crowd descending) to the Naked Cake (cake
decorating for the harried or untalented) to a White Christmas in the Bahamas. Each celebration includes clever advice and inspiration for place settings, homemade flower arrangements, table design, and more. These are parties that make use of what is on hand, whether it's beach towels thrown down a long table, children's candy piled in cups on a tray, or massing palm fronds collected from the lawn. Beautifully photographed and embellished here and there with a bit of Hicks family lore, the book is rounded out with a sprinkling of recipes from India's beloved cook, Claire Williams, fondly known as Top Banana, and other family members, from traditional English fare such as Victoria Sponge to tropical treats such as the Marquess's Banana Daiquiri.

Remorse

Remorse is a powerful, important and yet academically neglected emotion. This book, one of the very few extended examinations of remorse, draws on psychology, law and philosophy to present a unique interdisciplinary study of this intriguing emotion. The psychological chapters examine the fundamental nature of remorse, its interpersonal effects, and its relationship with regret, guilt and shame. A practical focus is also provided in an examination of the place of remorse in psychotherapeutic interventions with criminal offenders. The book's jurisprudential chapters explore the problem of how offender remorse is proved in court and the contentious issues concerning the effect that remorse - and its absence - should have on sentencing criminal offenders. The legal and psychological perspectives are then interwoven in a discussion of the role of remorse in restorative justice. In Remorse: Psychological and Jurisprudential Perspectives, Proeve and Tudor bring together insights of neighbouring disciplines to advance our understanding of remorse. It will be of interest to theoreticians in psychology, law and philosophy, and will be of benefit to practising psychologists and lawyers.

How should historians speak truth to power – and why does it matter? Why is five hundred years better than five months or five years as a planning horizon? And why is history – especially long-term history – so essential to understanding the multiple pasts which gave rise to our conflicted present? The History Manifesto is a call to arms to historians and everyone interested in the role of history in contemporary society. Leading historians Jo Guldi and David Armitage identify a recent shift back to longer-term narratives, following many decades of increasing specialisation, which they argue is vital for the future of historical scholarship and how it is communicated. This provocative and thoughtful book makes an important intervention in the debate about the role of history and the humanities in a digital age. It will provoke discussion among policymakers, activists and entrepreneurs as well as ordinary listeners.
The Golden Age of Murder

The book of Jonah is arguably just as jarring for us as it was for the ancients. Ninevah's repentance, Jonah's estrangement from God and the book's bracing moral conclusion all pose unsettling questions for today's readers. For biblical theologians, Jonah also raises tough questions regarding mission and religious conversion. Here, Daniel Timmer embarks on a new reading of Jonah in order to secure its ongoing relevance for biblical theology. After an examination of the book's historical backgrounds (in both Israel and Assyria), Timmer discusses the biblical text in detail, paying special attention to redemptive history and its Christocentric orientation. Timmer then explores the relationship between Israel and the nations—including the question of mission—and the nature of religious conversion and spirituality in the Old Testament. This New Studies in Biblical Theology volume concludes with an injunction for scholars and lay readers to approach Jonah as a book written to facilitate spiritual change in the reader. Addressing key issues in biblical theology, the works comprising New Studies in Biblical Theology are creative attempts to help Christians better understand their Bibles. The NSBT series is edited by D. A. Carson, aiming to simultaneously instruct and to edify, to interact with current scholarship and to point the way ahead.

The Anatomie of Abuses

This book is aimed at teachers who wish to improve their professional practice and will help them to think about current practice, not only in terms of skills and competences to be developed, but also areas of
knowledge to be enriched. The model of knowledge bases presented is a valuable framework for reflecting on practice and for analyzing professional development needs. The book is therefore an ideal text for teachers taking courses that may lead towards an advanced qualification in teaching or who are undertaking in-service training and action research programs. Teachers approaching 'threshold assessment' will find the book useful in reflecting on the quality of their teaching.

**Treason in Tudor England**

**Closing the Gap in a Generation**

In May 1970, four days after Kent State, construction workers chased students through downtown Manhattan, beating scores of protestors bloody. As hardhats clashed with hippies, it soon became clear that something larger was happening; Democrats were at war with themselves. In The Hardhat Riot, David Paul Kuhn tells the fateful story—how chaotic it was, when it began, when the white working class first turned against liberalism, when Richard Nixon seized the breach, and America was forever changed. It was unthinkable one generation before: FDR's "forgotten man" siding with the party of Big Business and, ultimately, paving the way for presidencies from Ronald Reagan to Donald Trump. In the shadow of the half-built Twin Towers, on the same day the Knicks rallied against the odds and won their first championship, we relive the schism that tore liberalism apart. We experience the tumult of Nixon's America and John Lindsay's New York City, as festering division explodes into violence. Nixon's advisors realize that this tragic turn is their chance, that the Democratic coalition has collapsed and that "these, quite candidly, are our people now." In this nail-biting story, Kuhn delivers on meticulous research and
reporting, drawing from thousands of pages of never-before-seen records. We go back to a harrowing day that explains the politics of today. We experience the battle between two tribes fighting different wars, soon to become different Americas, ultimately reliving a liberal war that maimed both sides. We come to see how it all was laid bare one brutal day, when the Democratic Party's future was bludgeoned by its past, as if it was a last gasp to say that we once mattered too.
